

Science Fair Mock Interviews

Participating in the Longs Peak
Regional Science Fair on
February 26th?

EOC staff, former CSEF participants, and pre-service science teachers will be available to help students in grades 5 - 12 who have never participated in a regional science fair review their projects and practice interviewing for judges.

Bring your display boards only if they are easily transported and set up - we will focus on what you know about your project and how to interact with the judges.

Please RSVP to
courtney.butler@colostate.edu

**College of Natural Sciences
Education & Outreach Center**
